

Please...I urge you, do not change the law to permit calls intruding into our home. It is unfair to subject Indiana residences to calls they do not appreciate. It has been great not to have our dinner hour interrupted as it had been in the past. After a long hard day at the office I don't appreciate having numerous calls wanting to provide me with unsolicited service. Don't weaken Indiana's bill to allow such calls again. Thank you for your consideration,
Joyce L. Conrad
